

CIRCUIT BREAKERS 4N-C2-100

Din Rail AC Voltage Current KWH Electric energy monitor

Key Features

Voltage

- Measurement range : 80-270V
- Accuracy : +1%

Current

- Measurement range : 0-100A
- Accuracy : +1%
- < 100 A display Such as: 99.9A

Energy

Measurement range : 0-9999kWh

Display format

- < 10kWh display such as : 9.99kWh
- < 100kWh display such as : 99.9kWh
- < 1000kWh display such as : 999kWh
- < 10000kWh display such as : 1999kWh

Over the test range will maintain the data, otherwise you reset it. Accuracy : 1%

Voltage display

Current display

Power display

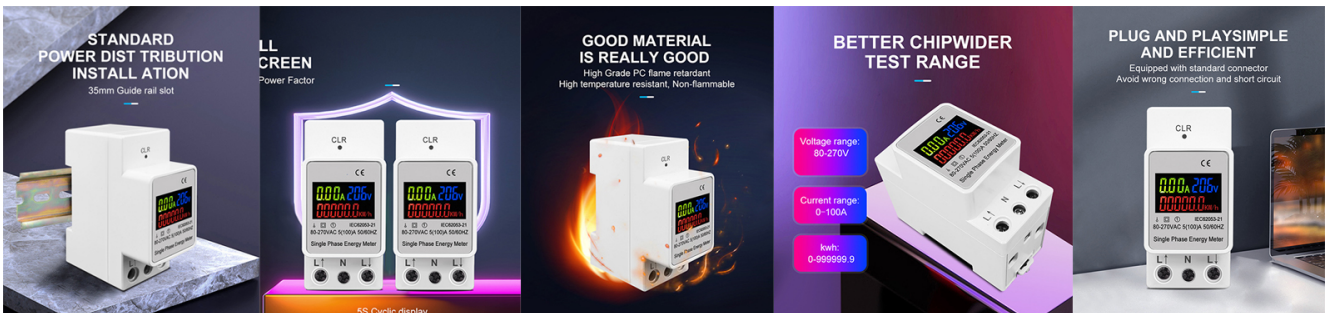

Energy display

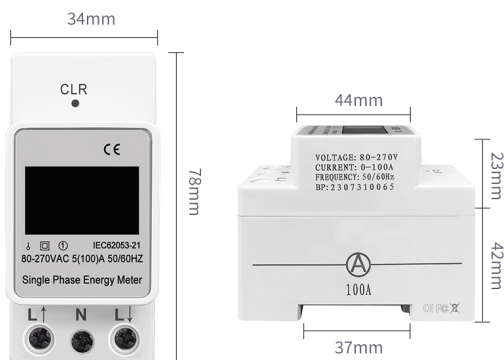

BTN liquid crystal display

Flame retardant shell

Dimension (mm)
